

COOPERS LANE SCHOOL RIGHTS RESPECTING NEWSLETTER

Autumn term 1 2019

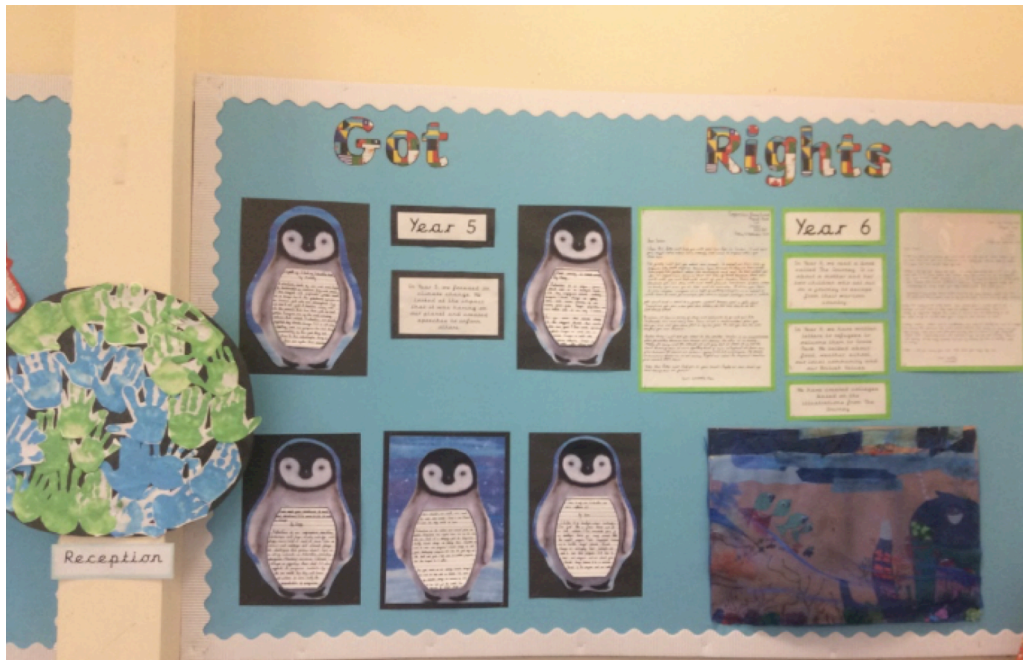

Year 1 have been exploring the Rights of a child. They made hand wreaths to display the Rights in their classrooms. They have also been thinking about setting up teracycle schemes around the school to ensure that all children have a right to a clean environment.

Year 3 and 5 had a visit from WE to talk about global issues. They focussed on the Sustainable Development Goal- 'Zero Hunger'. In groups, they discussed how the school could combat hunger.

The whole school celebrated a week of Rights at the beginning of the term. Every child in the school produced an amazing piece of work, which is on display now. Clean water, nutritious food, refugees and education were just a few of the themes explored.

School Council, Rights Respecting Rangers and Green Team had a visit from Janet Daby MP for Lewisham.

Janet Daby MP  @JanetDaby · Oct 4

A real pleasure to attend @CoopersLaneSch this morning to see familiar faces, to meet the children and to have a Q&A with the class representatives. I particularly liked it when they asked 'if we should spend less time on Brexit and more time on Climate Change'.

School Council have already created an Action Plan for the year ahead, which includes playground safety charters, talent shows, campaigns and friendship clubs. Watch this space for all of the amazing projects they will set up this year!

KS2 took part in an anti-idling day to explore the right to a clean environment. There was an assembly followed by an anti-idling snakes and ladders activity. Thank you to all of the parent volunteers and for co-operation at the end of the day!
