7th March 2018

Dear Mums, Dads and Carers,

Next week is British Science Week!

What is it all about?

British Science Week is a celebration of Science, Technology, Engineering and Maths. The theme for this year's British Science week is 'Exploration and Discovery', encouraging children to think about everyday discoveries and how they affect their lives by exploring science in the world all around us; from their home and schools, to their local area and wider environment.

Throughout the week, pupils will be taking part in exciting science experiments and activities in class. Other activities for the week include:

- **Science Boffins assembly on 8th March to launch Science Week**
- **Wow demonstration by the Senior Leadership Team**
- **Poster challenge**
- **Science fair**

We are also inviting all Mums, Dads and Carers to come and visit our wonderful Science Fair on **Friday 16th March between 8.40 and 9.30am**, which will take place in the Key Stage 2 hall. This will provide an opportunity to show case the exciting science enquiries that your children have been involved in during the week.

We look forward to seeing you there and joining us in celebrating your child's achievements.

Yours sincerely,

Rebecca Davidson
Science Lead
