

Coopers Lane School

PE and Sports Funding 2020/21

The government has provided additional funding to schools to improve provision of physical education (PE) and sport in primary schools. The money must be used to improve the provision of P.E. and school sport.

P.E. and school sport play a very important part in the life of our school. We believe that P.E. and school sport contribute to the holistic development of our children and, through participation, our children build and learn more about our key values such as respect, tolerance, teamwork, resilience, friendship, trust and responsibility.

Coopers Lane Primary School is committed to ensuring all our children enjoy sport and physical activity. We strive to build on the enthusiasm for PE that is felt by the whole school community and at the same time fully support the government's ambition to secure a significant and lasting legacy from the London 2012 Olympic and Paralympic Games.

We support pupil's physical education in the following ways:

HW School Skills

Harry Watling left school at the age of 16 with 2 years of coaching already under his belt. He then set out in the world of football to explore different techniques, deliveries and strategies of the game. Harry completed his coaching badges at the age of 18 passing his UEFA B License in football coaching became one of the youngest coaches in England to hold this accolade. It wasn't long before Harry was noticed and was hired by a Premier league football club at the age of 19. After educating himself further through different teaching and sports courses, HW School Skills was born.

HW School Skills is a vastly popular coaching company. We are extremely pleased to have the professionally trained coaches delivering lessons in our school on a regular basis. Having a Premier league academy coach delivering sessions is also something the children are very keen on. "We as people never stop learning" and Harry is keen to stress this to his staff. If we can have the best teachers of a subject who know when to use a specific method, when to step in and when to allow a child to discover themselves, we will make for a fun, educational environment for all.

All children in years 1-6 have weekly coaching sessions.

New equipment

Our school's PE budget and donations from the school community ensure that we have a wide range of equipment for the children to use. Equipment is checked regularly to make sure that it is all in good working order, and anything in need of repair is fixed or updated.

In recent times we have bought lots of exciting equipment, from small pieces like balls and ankle hoppers, to larger projects like the installation of outdoor table tennis.

Lunchtime games

It is not just during PE sessions that children at Coopers Lane School develop their sporting skills and fitness. At lunchtime children play games and use equipment with support staff. Children in Monument class said, "We like playing different sports at lunchtime. You learn to do new things." An increased number of activities in both playgrounds has led to a significant reduction in behaviour incidents.

After school enrichment activities

We provide a range of enrichment activities, or clubs, for the children to take part in after school. As a result of Covid we have had to reduce the number of clubs available, however we are still able to offer multi-skills, gymnastics, basketball, tennis and football for both KS1 and KS2. The children are able to choose a new club each term.

Tournaments

Children from across the school have the opportunity to be involved in tournaments with other schools. This supports the development of the children's sportsmanship and adds a competitive edge to their enjoyment of sport. However, due to covid we have limited access to tournaments this year.

School Grounds

We are lucky to have a MUGA (multi use games area) with all-weather surface, which means we can make the most of the outside area all year round. This year we plan to install a daily mile circuit in the playground.

Planned Spend

As a result of the Covid-19 pandemic we were unable to offer extended provision during the summer term of 2020. This means that we have carried forward some of the sports funding from last year. This funding has been used to heavily subsidise after school clubs for the summer term, enabling a higher number of children to access clubs.

Area of spend	Amount	Detail/Impact
Improvements to the playground equipment area and trim trails	£4,500	Children are more active at play and lunch times. Children are encouraged to take part in active games and activities during free time.
Lunchtime sports coach	£4,750	Children have increased opportunities to participate in activities which promote physical fitness
Subsidised After School Clubs	£7,000	Children have increased opportunities to participate in a range of different sports (heavily subsidised for summer term using the carry forward from last year, all clubs at much reduced rate, including half term and Easter holiday camp estimate £7000, this is 256 children attending clubs during summer term)
Subsidised Year 6 trip to Go Ape	£1,500	Activity day for the year 6 cohort, encouraging children to try something new and to challenge themselves
Football team coach and competition	Cancelled	Children have increased opportunities to participate in team sports and to take part in team competitions
New Equipment for each bubble	£2,000	Children have a variety of activities to take part in during lunch and play times.
New Equipment for PE	£5,000	Renewed equipment to enable a wider variety of sports to be taught during PE lessons, and a variety of equipment for breaktime activities (includes dividers for playground to enable bubbles to continue with sporting activities, will be used after Covid measures removed as general resource for organising playground to allow for more variety of activities)
