CYCLING FUN

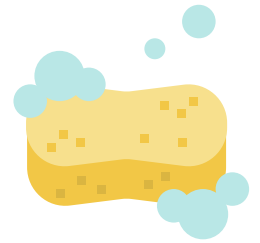

Inspired by World Car Free Day (22nd Sept), a group of Coopers Lane families got together this week to create their own bike bus! They had such a wonderful time cycling together that they've decided to do it again next month. If you would like to join in, all you have to do is scan the QR code to be added to the WhatsApp group. Have fun!

REMINDER: On **Sunday 25th September** Burnt Ash Hill residents will be getting together for a **Play Street**. The road will be closed to through traffic from Farmcote Road up to Senlac Road. There will be a **bouncy castle, outdoor games, art activities and food and drink**. Everyone is welcome to come along and play!

NURSERY

At Nursery this week it's been all about working together to get the jobs done. Kenan and Freddie decided they wanted to wash the car together, they asked for soap and a cloth. It came out sparkling! Look how happy the children are on the see-saw, Shivona was excited to wait her turn. The children are starting to get to grips with our tidy up routine too, placing the blocks on the shadows.

RECEPTION

This week in Reception we have been exploring our new wooden construction blocks. We drew a design for our house on paper first, then worked together to build a house out of the blocks. We worked as a team and showed determination and perseverance!

YEAR 1

In Year 1, we have been learning about maps and locations in Geography. We've learnt how to use Google Earth on the chromebooks and then had a go at finding our own streets. We also had a go at finding Coopers Lane School and we even explored our playground and found the MUGA! We were amazed to find the pictures of all the places in our local area.

YEAR 2

Year 2 have created their very own Highway animals this week to join The Highway Rat. We are using expanded noun phrases to describe them. In maths, we have been making two-digit numbers using place value charts and applying our learning to reasoning problems. In geography, we have become cartographers and mapped out the Key Stage 1 building, using the different symbols on the map to represent locations and landmarks.

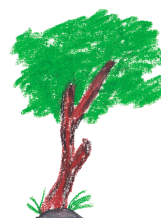

YEAR 3

This week Year 3 have been exploring our new text 'Cave Baby' by Julia Donaldson. We started the week making predictions about what we think might happen in the story. However the big, brown bear stole the last pages of our story and will only give them back if we can write a better description of the cave than him! So we visited a real cave and used our senses to help us describe what we saw, smelt, heard and touched.

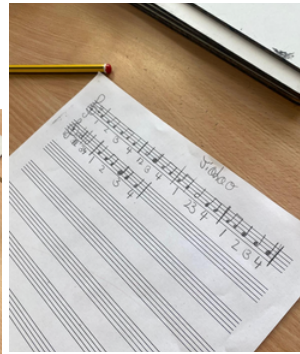

YEAR 4

This week, although a bit shorter than normal, has been packed with so much sharing, learning and creating! We had visits from many parents for our open morning - thank you for coming! In Maths, we developed our skills with reading different number lines and in English we wrote character descriptions. In art, we used oil pastels to create some amazing portraits! To top it all off, we explored volume and amplitude in science. This is where we composed and performed a piece of music using instruments. The music had to change in volume!

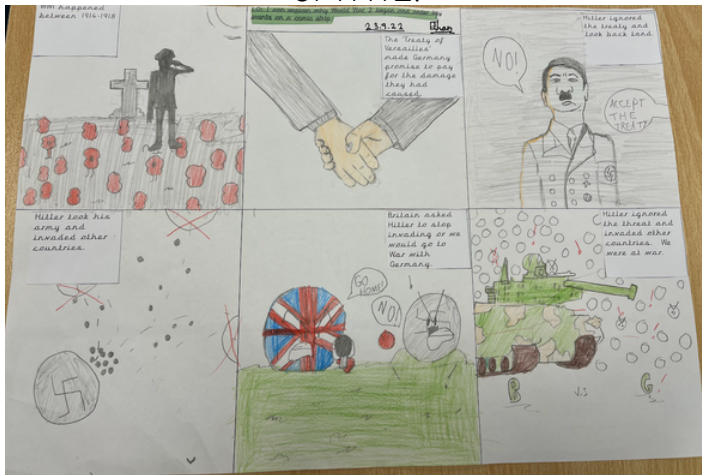

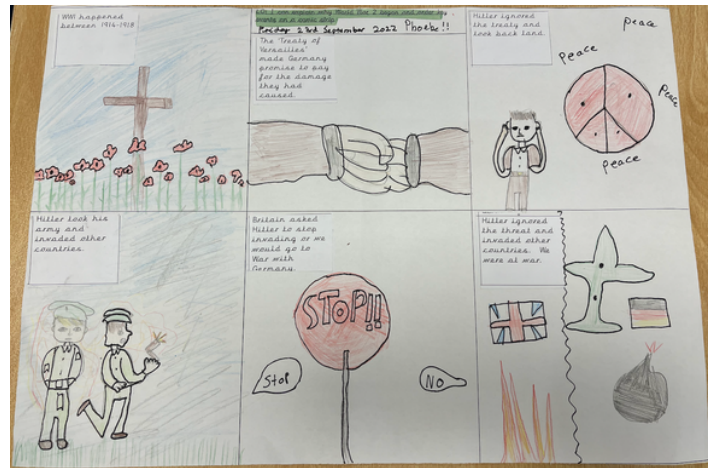

YEAR 5

Year 5 have had a fantastic week! We have been continuing our work on the book 'Flotsam' and preparing to write stories next week. We have been designing blogs in computing and we have started learning how to read and write simple rhythms in our music lessons.

YEAR 6

This week, Year 6 have been learning about the causes of WW2. In order to do this, we had to travel back in time to WW1 and learn about the consequences of this conflict for Germany. We discussed the 'Treaty of Versaille', its impact upon Germany and the Nazi party's determination to rule the world. We made comic strips to explain the causes of WW2.

ONLINE SAFETY TIP

This week's online safety tip is about creating a digital family agreement. We think it would be a great idea to create and agree to rules regarding how you and your child will use your digital devices. By creating an agreement you can talk about how your child will share issues they encounter online, what they should do to protect themselves online and what you will do to help them. Take a look at the example agreement in this link and why not create your own!
