PRIDE

Well done to all of the children in Year 6 for completing the SATs tests this week in school. We are very proud of the children for demonstrating such amazing perseverance and working so hard this week and throughout the year. You all gave your absolute best and this is all that matters. You are all superstars!

There's lots to look forward to this term, as we move into summer. I hope that you have put the important dates in your diary and will be coming along to our sports days, summer fair and the annual Broadstairs Trip. You'll be sent booking information for Broadstairs very soon and I have already put in an order for a lovely sunny day!

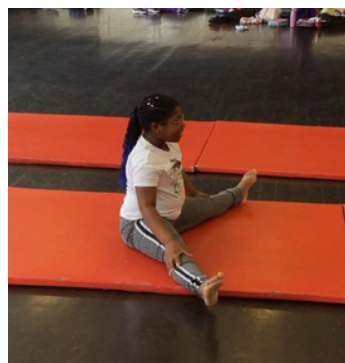

Have a lovely 'Eurovision' weekend.

GYMNASTICS CLUB

Congratulations to the children in our gymnastics club who performed brilliantly in their competition this week.

You can now find us on Instagram

@cooperslaneprimary

NURSERY

This week we have been reading the story of 'The Three Little Pigs'. As you can see the children have loved acting out the story in their play. Edward made a house for his pigs. He is the big bad wolf; "I'll huff and I'll puff and I'll blow your house down." In the outside area the children built a house with bricks, so the big bad wolf could not blow the house down they said. Look at the children climbing and hiding in dinosaur land.

RECEPTION

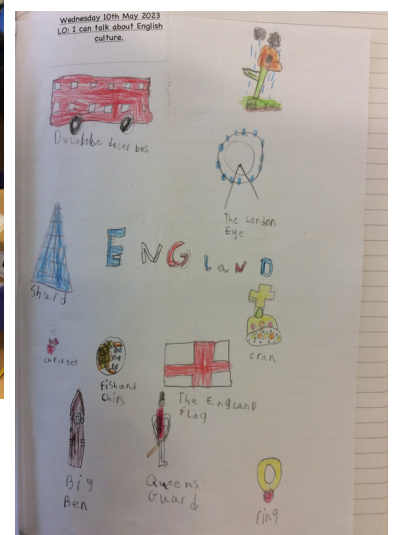

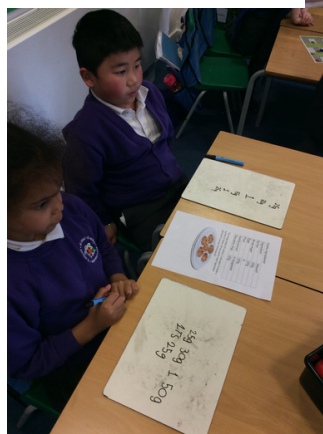

The children have been super busy this week in Reception. Daisy in Waterloo practised her basketball skills outside and managed to bounce the ball 603 times! Noah, Adam and Cary made volcanoes in the sandpit. Alina made a shelter in the classroom using pegs and blankets - it was very cosy.

YEAR 2

We've continued our work on fractions and have learnt how to find fractions of amounts.

In geography, we learnt about English culture and designed posters. In English, we discovered there was a sequel to Dragons Love Tacos, which is very exciting and we made predictions of what it might be about and then wrote our own blurbs.

YEAR 1

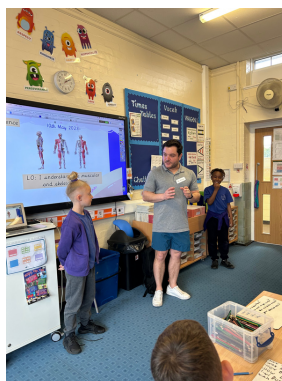

In this week's Year 1 adventures, we have been making our very own play dough to add to the outdoor area, we have been showing off our great maths skills around multiplication and division, playing great games in Phonics and learning more about our Prime Minister. We wonder what adventures we'll have next week?

YEAR 3

This week Year 3 had a visit from the lovely Dan Baldwin to teach them all about muscles and the skeletal system. We thought of questions to ask and Dan gave us great responses! We completed practical activities such as jogging and wall sits.

We learnt lots of interesting facts such as we are taller in the morning versus the end of the day. We would like to say a massive thank you to Dan for teaching us.

YEAR 4

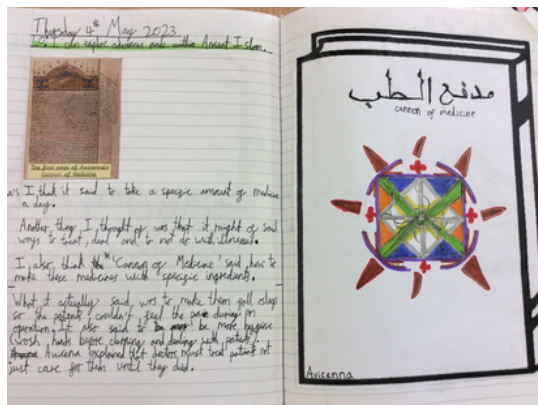

This week, some of year 4 took Science lessons outside in our Peace Garden. This learning was linked to our unit 'Living Things and their Habitats'. We were on the hunt for creatures in their homes, but were careful not to disturb their habitats. We then discussed some of the ways in which habitats around the world can change because of issues like pollution and global warming.

This week we have been really enjoying learning more in History about the Spread of Islam and the Holy Wars. Last lesson, we learnt that the spread of Islam resulted in contributions to science, mathematics and art.

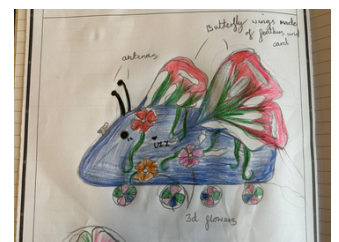

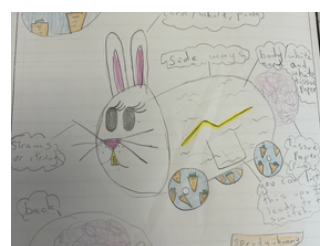

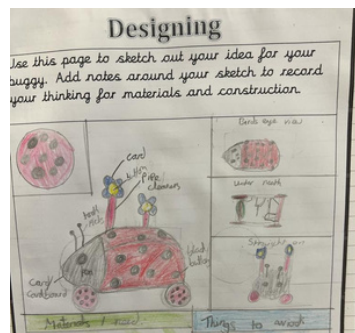

YEAR 5

We learnt about Avicenna, an Islamic doctor who wrote the "Canon of Medicine" which doctors used up until the 17th century. Many of his teachings have influenced doctors and the treatment of patients today. We also found out that the city of Jerusalem is considered the Holy Land by Christians, Muslims and Jews. Finally, we learnt about the many crusades to take over Jerusalem led by Christian Kings.

YEAR 6

Year 6 have started working on their buggies for the annual 'Year 6 Buggy Race'. We have thought about the design process and carefully measured our wood before using a saw to cut it to size. We also thought carefully about our designs and what we wanted our buggies to look like. There are some wonderful, unique and creative designs, and we cannot wait to make them a reality!

PTA UPDATE

SUMMER FAIR UPDATE - VOLUNTEERS STILL NEEDED !

Thanks to everyone who has volunteered, but we still need lots more volunteers. Get in touch via the form below if you can help - every hour helps!!!

The fair lasts for four hours, and with over a dozen stalls we need plenty of adults to help keep everything up and running. If we can get a good number of people signed up then we can share the work out in one hour slots – giving everyone plenty of time to enjoy the event as well.

If you can volunteer – either for one hour during the fair, or before, or after – that would be a huge help. Please register using the form below, and we will be in touch nearer the time to confirm a slot. Thank you!
